Forecast for Sunday 26 Feb 2023

Weather: Dry overnight with some clear spells and a sharp frost in the valleys. A bright start and a dry day on Sunday but cloud increasing during the day, especially for eastern areas towards Bethesda and Capel Curig.

Chance of cloud-free hill tops above 800m: 80%, some lower cloud drifting in from the east.

Low Cloud and visibility: Patchy low cloud above 600m at times particularly affecting eastern mountains like Foel-Fras and Drum otherwise visibility will be very good around Snowdonia with good views especially in the west towards Snowdon.

Meteorologist's View

Feeling very chilly in the morning on the mountains, especially in fresh northeasterly winds but freezing level lifting to around 600m in the afternoon.

Forecast for Monday 27 Feb 2023

Weather: A cloudy day but some brighter spells towards southwestern areas near Dolgellau and Cadair Idris Perhaps a light shower around the east but generally a dry settled day.

Maximum wind: Northeasterly 10-15mph

Chance of cloud-free hill tops above 800m: 80% some low cloud drifting in from the northeast.

Low Cloud and visibility: Patchy or scattered cloud likely at times above 600m, more especially affecting northeastern upland areas but the cloud may thicken everywhere in the afternoon. Very good general visibility beneath the cloud layer.

Temperature: **Valleys:** Plus 3 rising to 7 Celsius.
At 800m: Minus 2 Celsius rising to
Freezing level: 600m rising to 800m
